

SHOE SHELF INSTALLATION INSTRUCTIONS

NOTE: Use one shoe support 2-4" from each end of shelf and every 48" in between.

Pre-assembly: Determine shoe shelf location. Install wall clips according to package instructions.

1. **A.** Hold shoe shelf so front lip faces up.
B. Place shoe support between shelf wires as shown.
C. Rotate shoe support (90°) as shown. Be sure shoe support is wedged firmly between shelf wires.
2. Adjust shoe support to hook onto back wire of shelf.
3. Snap back wire of shelf into wall clips. Lower front of shelf until shoe support leans on back wall.
