ClosetMaid specialise in home storage solutions which has made them the worldwide leader in home organisation, offering innovative wire and laminate storage systems for use in every room in the home! At Organise My Home we are proud to be the UK's largest retailer of ClosetMaid products and have created a number of cost effective packages that will help get your child's wardrobe organised, neat and tidy! Our ClosetMaid packages offer great flexibility using the adjustable ShelfTrack fixing system, which allows parents to reposition, add / takeaway shelves and accessories as children grow, and their needs change. With prices from £139 inc. VAT, you can't go wrong!

ClosetMaid shelving and storage systems are simple to install and packages can be trimmed to suit the exact dimensions of your space. Wire shelving is made from strong and durable steel with a white vinyl coating to prevent rust, which is also easy to clean and requires no finishing or maintenance! You can install a ClosetMaid system into any built in wardrobe enclosure, or create space along a wall in a bedroom and simply mount the shelving to the wall. All hardware and DIY installation instructions are included, but customers can also ask about our professional installation service!

Functional storage space is key when planning a child's bedroom, which is why Organise My Home also offers a FREE design service, so if our brand new packages do not quite fit your requirements, we'll come up with something to suit! Just contact us with the dimensions of the space you wish to utilise, and our design team will take care of the rest!

Available to purchase direct from our website ([www.organisemyhome.com](http://www.organisemyhome.com)), it couldn't be simpler to find a storage solution to suit your home! Packages are in stock and ready to ship nationwide from our Showroom / Warehouse location in Tonbridge, Kent. Customers are welcome to visit our showroom Monday – Friday 9am – 5pm or Saturday by appointment only.
